Festival of the Turnverein at Pittsburg—History of the Association.

The city of Pittsburg is greatly enlivened this week, by the regular annual meeting of the association known as the Turnverein or "Turners." Branches of this large, and important association exist in most of the large cities of the United States, and are composed principally of young men of German birth or extraction.

Some forty or fifty branches of the association are now represented at Pittsburg, engaging in their annual festivities, and merrymakings.

Of the history, character, design and constitution of the Turnverein, nothing is known by the mass of the people who are not of Teutonic blood. Many possess vague and unfounded ideas of its nature which are calculated to arouse prejudice against the institution. Theoretically, a Turner Society, is modelled after the Grecian *gymnasia*, which were combinations of physical and intellectual exercise and development—schools of the brain and muscle. But the practical tendency of a consolidation of so many of like sympathies and beliefs is to tinge the society with certain political as well as religious hues. These are not constitutional and organic inherents, but must be regarded as inevitable concomitants.

The history of the Turnverein is not without interest. It had its origin with Frederic Louis Jahn, as early as the spring of 1810. His first *Turnplatz* (Gymnasium) was begun in that year at the *Hasenhaide*, a large public house near Berlin, Prussia. Dr. Jahn was a man of profound learning and an ardent patriot, and his memory is dear to thousands and tens of thousands who have enjoyed the benefit of his arduous labors.

Our readers will remember that in 1809, the French were masters of Germany. Jahn, who was a prominent and active patriot, was for a long time employed in devising the best means for preparing the Germans for a contest with their oppressors. His classic mind hit upon the idea of restoring, in some degree, the ancient *gymnasia*, as better adapted to congratulate the young men of Germany where the more readily their patriotic impulses might be developed and nurtured.

In 1810, as we have said, he reduced his plans to practice. But the disasters which the French armies experienced in Russia, led the Germans to a war against France much sooner than the most sanguine had hoped. When the peace of Paris was concluded, the *gymnasia*, which had been closed during the time of war, were reopened, and, when the Germans found themselves disappointed in their expectations of liberal institutions, when the princes broke their most solemn promises, the *gymnasia* were made use of to inspire the youth with an ardor for liberty. Many imprudent steps were taken by the German people, and Jahn himself was not always wise in his conduct. Much had crept into the *gymnasia* with which the public was dissatisfied, and when Sand (a member of the Burchenshaft at the University of Jena) assassinated Kotzebue, and the government, which had already become suspicious of the secret societies, ordered them to be closed, no opposition was made. Jahn and many of his friends were arrested, and treated in a very arbitrary and illegal manner, but were afterwards discharged without trial.

They were, however, again reorganized by the impetuous Jahn, and the revolution of 1830 again aroused their liberal tendencies. They were denounced as a revolutionary society, and again suppressed. But the old master-spirit was still alive, and from the ruins of a second downfall arose a structure which was destined to bear the storms of opposition longer than any of its predecessors. The Turnverein has since continued to exist and flourish, and with thousands of young Germans who have left *Fatherland*, it, too, has emigrated to the shores of the New World to attain a degree of prosperity rivaling the parent body in the old country.

In the days of '48 and '49, when the fires of revolution and liberty burned brightly over all Europe, we find the Turners once more active in the holy cause of which they have ever proved such true and noble adherents. They threw themselves into the conflict against the myrmadons of the German tyrants. At Latenburg and Waghousel, particularly, where thousands of Prussians were slain, the Turners, in company with the brave artillery of Baden, rushed foremost into the battle.

With regard to the introduction of the Society into the United States, we have a few facts. In 1825, Dr Beck, a pupil of Dr. Jahn, established a gymnasium at Northampton, Massachusetts. This, however, does not appear to have been part and parcel of the organization of which Jahn was the leader.

The first regular Turner Society was established in New York in 1848. In the same year a society was organized in Cincinnati. Since that time it has expanded very rapidly, and its ramifications now embrace the whole Union, from Maine to Texas. This Society, however, is most flourishing in the Free States, there being but eight or ten branches south of Mason and Dixon's Line.

The Association, in its form of government, is modeled after that of the United States—the *Turnerbund* being the highest legislative body, corresponding to our National Congress. The Turnverein is not political, religious, or exclusively German in its character. A son of any clime, a disciple of any faith, or a member of any party may find admission to its folds, if he be a man of good moral character, and of good repute amongst his fellow citizens. It is not a secret association, and has for its organic objects:

1. The development of the physical system by gymnastic exercise, conducted upon scientific principles.
2. The development and cultivation of the intellectual faculties by the most approved methods.
3. As a corollary, or rather consequent of these two, the formation of such character as goes to make a *good citizen*.

Confined to such noble and praiseworthy efforts, the Society can scarcely fail of accomplishing much of moral as well as physical good among the German population of our country.

Five Points Mission New York.

Some months ago we published an account of the measures adopted by a few benevolent individuals for rescuing the vagabond children who swarm the streets of New York, from the life of misery and crime to which they are almost inevitably destined, by removing them far from the city, and placing them in families where they are surrounded by influence and associations which will prepare them for lives of virtue and happiness. There are several societies engaged in this good work, the importance of which cannot be too highly estimated. We are permitted to publish the following interesting letter from Rev. W. C. Van Meter, a Baptist brother, who has devoted himself to this labor of love. Although Mr. V. is connected with the Five Points Mission, his labors are not confined to that society, but, as will be seen, the children who accompany him to the West are taken from several other institutions. His letter contains many interesting particulars of the success which has attended his labors thus far. Who can estimate the amount of good which is accomplished by the change made in the condition of some of these little ones? As has been aptly said:—"The timely help extended to one in need is like the change of a railroad switch—one inch between wreck and ruin, and then smooth onrolling prosperity." The letter is addressed to Rev. N. Mead, of the Fve Points Mission:—

Dear Brother.—Since my last Report to you I have placed *eighty-seven* more children in kind christian homes; some of these were from the Home for the Friendless, Children's Aid Society, and News Boys' Lodging Room. Not *one* of all these dear children sustains the relation of a *servant*. Several are adopted, their names changed to that of their foster parents, and others are taken to be educated for teachers. One lovely little girl has been adopted by the teachers and pupils of the Rockford (Ills.) Female Seminary, under the care of Miss Sill, and is to be most thoroughly educated in that excellent institution. I planted fourteen of our little ones in Rockford, which is a beautiful and flourishing place, and one of the most intelligent and moral towns I ever saw. When I arrived there arrangements had been made to take the children to temporary homes, and relieve me from the care of them during the Sabbath. Every heart seemed open. I received about $300 and six boxes of clothing and bedding, and a cordial invitation to return. The poor *fingerless* girl from the Home, whose case seemed so hopeless, was kindly and promptly taken by a wealthy pious lady in Peoria, Ills. She, with others, called to see the children.

Some spoke of the beauty of this one, others of the eyes, hair, or fine head of that one, but this lady stood silent with her eyes filled with tears. She went home, thought and prayed, and called again—conversed with the girl, and learned that she loved her book, and would be glad to become qualified to teach. She returned home, counseled with her mother and pastor, and in the morning said, "I will take her." I have seen her several times since. She is as happy as she can be, and Mrs. S. says she is a "most excellent girl." You remember the little lame one, whose personal attractions were not great. I feared, after I arrived in Illinois, that I should have to take her back, but have been most happily disappointed. A gentleman who is greatly prospered in temporal and spiritual things, invited me, with two of the children, to dine with him. While at his house I related the following incident, which secured for this child a home with him. I said:—"Last night these two little ones enjoyed the hospitality of a kind merchant in Chicago. He and his wife are church members. This morning, as we were coming in the cars C. said:—"Oh, what a nice place we had; the bed was as *soft as water*. We had such a nice breakfast, and they were so kind!" I answered, "I know they are most excellent people. What a nice home it would be for you." "I wouldn't like to live there," said she. "What not?" "They don't pray," she replied. "Yes they do." "No, sir, they didn't pray before we went to bed, nor when we got up, nor give thanks at the table, nor read the Bible. He read a newspaper all the morning." "Don't you think they are Christians?" said I. She paused and then said, "I thought Christians prayed!" I confess, sir, I thought so, too. I was silent for a while, for I was ashamed to know that these kind friends were members of a church. After a few moments she said: "Mr. Van Meter will you put me in a home where they don't pray?" I said "No, my child,—no, never," and I thought "for of such is the kingdom of heaven." It was enough; the good man and his wife said, as they sat at the table, but, in the interest which they listened the story, "forgot to eat their bread." "She shall share with us what God has given us." There my dear brother is, Catharine. You remember the poor little girl who lived all last winter in a stable? She said, "We went in before the snow fell on the roof. Father and mother got drunk so much that they could not live in a house. My little brother had not shoes. We wrapped in a blanket when it was very cold. Sometimes the snow was very thick over us in the morning. Sometimes I would climb up an old ladder, and try to stop the holes in the top of the stable to keep the snow out. Father and mother would fight. One day father took a knife, when they were fighting, and cut mother, and cut her, and cut her, till she died. Then he cut his throat, and the blood ran out, and he died. O, he was *bad*. Mother was good. I am glad he is dead, but I want my mother back." Poor lone one you have seen the dark side of life.

The Pastor of the Presbyterian church has taken this little crushed bud, and already it begins to bloom. I have seen them since and all are happy. When she met me at the door of her new home, she put her arm around me, and her little heart ran over. She wept for joy. "My daughter do you want to go back to New York?" "No sir." "Why do you cry?" "I don't know, sir, I am glad." I asked the good Samaritan who had taken her, how she appeared from day to day. "Very well, indeed." As he spoke of her, he said with peculiar pleasure and surprise "would you believe, sir, that yesterday, when she was alone up stairs, we heard her sing." Thank God! The little drooping caged bird began to feel its freedom.

I should love to relate all the interesting incidents connected with these saved ones, but it would fill a book, and be "stranger than fiction." The greatest kindness is shown by conductors and landlords everywhere I have been. I desire to make special mention of the N. Y. & E. R. R., and the Chicago and Erie R. R., also the Massasoit House, Springfield, Mass., Angier House, Cleveland, Ohio, and Holland House, Rockford, Ills. Editors have been very kind, and have performed a very important part in this great work by their kind notices.

I have been visiting those whom I had previously placed in homes, and have been most happily disappointed in the result. Not one in ten disappoints our expectation, and where there has been trouble, I am satisfied that not always was the whole fault on one side. I have removed three out of two hundred to new homes, and others are doing well. Three have run away. Not one has died. Several have been converted. All are attending Sabbath School and Church. I am daily receiving encouraging letters from those who have taken these children. As the result of my experience in this work, I am satisfied that it is the most important part of our work among the poor and neglected of this or any other city. You cannot thoroughly reform the young to any extent in assylums or prisons. Scatter them as quick as possible among intelligent, pious farmers, far from town and city.

I expect to start west with a car-load of children, the first week in September, and visit again, as far as possible, those previously placed in homes, and see if "it is well with them."—May God bless and strengthen you in your work down in the deep, foul pit into which you have descended.

W. C. Van Meter.

A Slave Made Free by a Member of Congress.

We find in Zion's Herald a letter from the Hon. Mr. Trafton, a member of the House of Representative from Massachusetts, in which he gives an interesting account of the purchase of a female slave, to whom he gave immediate freedom. We give a portion of Mr. Trafton's letter:

I must throw myself upon the mercy of the people of Massachusetts, and say, as Burlingame said, "I hope they will forgive me!" The case was this: I learned from a neighbor that there was somewhere in the city a slave girl whose master was willing to sell low for cash. That his sons where unwilling he should sell her, as when he died she would bring $1,000; I heard he had offered her for four hundred dollars. I started off in the morning; and found the family in which she lived, hired out of course. She was apprehensive that she would be sold South. Said the good woman to me, "I would not suffer what Eliza had suffered for a little time past for all the world. She came home from market the other morning," said she, "pale and trembling, and another girl had told her that she saw a slavedealer that morning talking with the old man." This was enough to alarm her. Learning his residence, I soon found him. He said he had offered her to herself for $400—that a man in the city had promised to buy her for himself, and was to have paid him the first day of this month, and that he had his trunk all packed to start for the Springs, but he had not brought the money.—"And now," said he, "if she will pay me $350, she shall be free." I asked him to give me the refusal of her until the next morning. To this he consented. I then went to the Capitol, over which waves the stars and stripes; I am not sure that I did sing, as I went up the steps,

"Hail Columbia."

I drew up a paper, starting it with a much larger sum than I could afford—but I had determined to advance the whole sum if necessary, and appeal to my friends at home. Before the House adjourned, I had $345 promised. I borrowed the balance not paid in, and yesterday morning, I had the woman's free papers made out and executed. If my constituents see my name missing on one vote that day, let them know I was just then pleading with a slaveholder to give five dollars to buy this woman—for I called on a large number of these partriarchs. Some laughed at me, and said "she is better off." Two of them offered to buy her themselves—one of them said he would give $800 for her on my representation. Humphrey Marshall, of Kentucky, James H. Seward of Georgia, H. Winter Davis, of Maryland, and J. M. Harris, of the same state, each gave me five dollars, while many Northern men did nothing from conscientious scruples. This morning I went and read the free papers to the girl. M. Trafton.

The Mississippi Bridge.—The great bridge across the Mississippi, at this city, is again about completed. The lost span is restored and looks as strong and magnificent as if it had never yielded to the devouring fires of any jealous steamboat. The bridge will probably be ready for the crossing of the cars again this week.

By the way, it won't be so easy for a steamboat to get through the draw, so as to get caught by the current and come down against the span to burn it again—*accidentally* we mean, of course. A strong crib is sunk above, about the centre of the span, and two booms extend from it to each pier. It will be impossible, therefore, to get at the bridge that way again with any show of accident. A boat now must first run through the draw a considerable distance and then drift back again to get against the bridge at all. Even then, unless the water is extraordinarily high, as was the case before, the bridge could not catch the upper works of the boat, but the force of the current would knock off its chimneys and let it pass under. A stage of water like that when the last accident occurred does not happen more than once in ten years.—*Rock Island Adv. 1st.*

County Convention.

We learn that some of the people suppose that the Convention that is called by the Republican Committee in this county, is to nominate candidates for county officers. This is a mistake; the Convention called can only send delegates to the Congressional Convention.

The Convention for county officers will be called in due time.

Correct the Ticket.

Many of our exchanges still publish the Electoral ticket, with errors, which will be fatal to the candidates if not corrected in time.

Mr. Ferry, and not *Perry*, Jonas, and not *Jones*, Brosswell, and not *Broswell*.

Our exchanges at Dixon, Quincy, Oregon and Belvidere, will find the above has special application to their localities.

Colfax's Reception.

Schuyler Colfax had a glorious reception at South Bend, Indiana, (his home) on Wednesday. An eye witness informs us "that the whole country seemed to have turned out." Their fearless representative had done his duty, and their welcome, in consequence, was most enthusiastic. All honor to such men!

A Voice from Vermont.

Returns from Vermont are incomplete, but we have enough to assure us that the State has gone overwhelmingly, Republican. At least twenty thousand majority for our candidate for Governor—an unbroken delegation in Congress—an almost unanimously Republican Legislature, are the auspicious results. Among all the States of this Union, Vermont is preeminently distinguished for the intelligence and virtue of her sons, for her devotion to popular forms of government, and for her loyalty to the Federal Union. It is no wonder, then, that she speaks with so clear a voice in favor of the Right. So it will be in all the States in which the education and enlightenment of the people are cared for—where a love of liberty is united to respect for law, and where Democracy is not crushed out by Slavery. Where school-houses and churches are, there is Fremont's strength.

Dannenhower Expected Back.

We knew that the haste of the State *Register* would defeat the plans which the *Times*, Col. Richardson, Dannenhower, the President of the Illinois Know Nothing Council, and C. H. Constable, Know Nothing Buchanan candidate for Elector, had concocted to damage Col. Bissell by charging him with being a Catholic. The plan, doubtless, was to get Dannenhower's affidavit to back the charge up; and Constable's certificate that the oath, as printed in the *Times*, was a correct copy; but the *Register's* precipitancy has forced the *Times* to bring out the charge without these "proofs." Dannenhower will be back in a few days, and Constable will be in town about the time that Douglas speaks, a grand council will be held and the *Register's* error repaired. Wait for Dannenhower's affidavit.

Is Illinois sure for Fremont?

A letter from an intelligent gentleman in this State, published in the New York *Evening Post* of the 2d, sets down Illinois as sure, by 20,000 majority for Fremont. We dissent from his conclusions. If the friends of Fremont will work earnestly and faithfully from this time until the day of election, we shall carry the State by a respectable but not a large majority. If they fail to put forth all their strength, and fail to present their cause to the people as it may be presented, we shall be beaten. There is no policy so bad as that which undervalues the strength of an opponent; in this case, if we can prevent it, our friends shall not fall into that error. In all the Southern part of the State, the Buchaneers are strong, and in some localities overwhelmingly so; and there, where we most need votes, the opposition to the Administration and Buchanan will be divided between Fremont and Fillmore—injuring the former without benefiting the latter.

We tell our friends, now, both East and West, that they must not be deceived by the unanimity of the Northern counties. It is not in them that the battle is to be fought. There is work to do in the centre and South. Be assured that it must be done, or Illinois must be surrendered to the enemy. Documents must be circulated, public meetings held, prejudices overcome, lies exposed and truth established. This work cannot be commenced too soon.

The Ladies of Beloit.

We think the part which was undertaken by the ladies at the great Fremont gathering of Wednesday, worthy of a separate chapter. The benignant public will therefore please understand that a few ladies in Beloit got together, a few days before the mass meeting, and resolved to do something for their afflicted, pillaged brothers and sisters in Kansas. The plan adopted was perfectly simple and feasible, requiring nothing but the average of executive skill and resolution which every daughter of New England is understood to have her full share of. It was resolved (and executed) to furnish a large dinner in the grove near the platforms occupied by the speakers, feed the multitude who must be fed either there or elsewhere, and appropriate the avails to Kansas, where money, clothing and provisions are just now about as essential as speeches in Southern Wisconsin. The result was something over five hundred and fifty dollars ($550.00.) Now this was to be expected of the ladies of Beloit, but we wish to recommend the example with all the earnestness we can command. Five hundred and fifty dollars or even fifty dollars will relieve many sufferers in Kansas, who have been harassed and plundered all summer by banded horse thieves, cut-throats and other Missouri vermin, and are to be starved to death this winter by the same branch of the Democratic party, if possible.

We appeal to the ladies of other towns where great mass meetings are to be held to imitate the ladies of Beloit. It costs but a trifle. It is immediate salvation to Kansas.

Amendment of the State Constitution.

[Correspondence of the Chicago Tribune.]

Mr. Editor:—I find on page 743 of the *Private* Laws of this State, of the year 1855, the following resolution:

"Joint Resolution relative to a Convention to alter the Constitution.

Resolved, By the Senate and House of Representatives of the General Assembly of Illinois, that the Electors of the State of Illinois be, and are hereby recommended at the next election for members of the general assembly, to vote for or against a convention for the purpose of altering or amending the Constitution of the State of Illinois."

The Constitution laws of 1849, p. 21, Art. xii. Sec. 1, as to voting under such a resolution, is as follows:

* * * "And if it shall appear that a majority of all the electors of the State voting for representatives having voted for a convention, the General Assembly shall at their next session call a convention, &c."

I am for a Convention to amend our Constitution; and as the vote of every man who votes for members of the Legislature, who does not vote at all on this question, virtually votes against it, it behooves the friends of the call to be on the alert, and to be informed of its pendency before the people. A very general impression prevails that no such resolution was adopted by the last Legislature; that impression should be corrected so as to give the question, whether or not the present defective Constitution should be amended, a fair hearing.

Yours, &c., W. T. B.

Railroad Accident.—On Wednesday night, about sixty miles this side of Detroit, on the Michigan Central Road, a collision between a night train going east and an emigrant train west, occurred, with immense damage to both. A child was killed and several other persons, half a dozen or more, were wounded, and eighteen cars were smashed up. The express train out from Detroit was long detained at the wreck. We are not sufficiently informed in relation to the accident to say who is to blame for its occurrence.

A Border Ruffian Preacher.—The latest recruit to the ranks of the political preachers is the Rev. Henry Clay Dean, Chaplain of the U. S. Senate. He has not actually preached politics from the pulpit, but he has been writing Locofoco electioneering pamphlets, to be distributed by the Democratic Members of Congress.

The Lieut. Governor.—The Illinois *Journal* suggests Sam'l D. Lockwood, of Kane county, and the Quincy *Republican* brings forward John Wood, of Adams, each as *the* man to fill the vacancy in the State ticket, occasioned by the withdrawal of Mr. Hoffmann.

Progressing.—Hon. Rufus Choate is only a few days a Buchanier, and yet he already speaks of "the glittering and sounding generalities of natural right which makes up the Declaration of Independence." He will soon denounce it openly, as the other nullifiers do.

Later From Kansas.

Rev. Mr. Nute a Prisoner in the hands of the Ruffians.

MURDER OF BIMBER.

GATHERING OF THE CUT-THROATS.

By a gentleman who left Leavenworth on Saturday, we have late and important news from Kansas.

On Thursday last, an escort of one hundred mounted men left Lawrence for Leavenworth to ensure the safety of Mrs. Hoppe, the widow of the gentleman who was murdered near the latter place about two weeks ago. In the party was Mr. Nute, of the Unitarian Church at Lawrence, the brother-in-law of Mrs. Hoppe, who accompanied her for the purpose of looking after the murdered man's effects, and securing his sister's passage down the river. The escort remained with them until they arrived at a point about six miles from Leavenworth, when, supposing the road from there in was clear, the mounted men returned. Just before parting with Mr. Nute, the escort captured three men of the Ruffians, who were observed hanging upon their rear. One of these had on a white hat, and over the band, in front, these words, "*Death to all Free State men!*" were written in black ink. They were examined as to their intentions, and disarmed and released. Though fit subjects for the nearest swinging limb, the settlers determination that no act of theirs which looks like revenge, shall be urged against them by their enemies, caused their discharge. Our informant says that their fears, as expressed in actions and words, were vastly amusing. Their gratitude, when told that they might go, was unbounded. Mr. Nute and Mrs. Hoppe were soon after beset by one of the marauding gangs, which are scouring the country in all directions, and were carried into Leavenworth and held as prisoners. Mrs. Hoppe was denied the privilege of visiting her murdered husband's grave, was denied all opportunity to recover the property which had been stolen at the time of his death, and finally was denied permission to leave the Territory. The next morning, the latter decision was reversed, and she was unceremoniously hustled aboard the *Converse*, without a dollar in money, and sent down stream, with as little care for her grief or her wrongs as if she had been a dumb beast. Mr. Nute, at the time our informant left, was still in their hands, and the Ruffians were threatening him with death. Inasmuch as he is a man of pure character and blameless life, it is not impossible that he has, before this time, paid the common penalty for daring to be a Free State man.

Just previous to our informant's leaving Leavenworth, a German, from the neighborhood of Lawrence, who had been taken prisoner, on his way in with a team, in company with others on the same errand, wrung himself out of the hands of his captors, and attempted to fly. He was overtaken by a bullet from a revolver, which killed him dead. The unfortunate man's name was Bimber; he was a farmer, and was guilty of no offence except of daring to come to Leavenworth to buy provisions. He was suspected, however, as are all the other Germans in the Territory, of entertaining opinions adverse to making Kansas a Slave State. The other teamsters were still prisoners; their teams had been "confiscated" to the use of the Border Ruffians. While Bimber's body was yet lying in the street, (it lay there for hours, exposed to the sun,) a Free State man, moved by the sight, exclaimed, "*My God! how long are these things to last?*" This was thought to be treasonable, and it was with difficulty that he escaped the fate of the murdered man lying stark and stiff at his feet.

Mr. Hopp's murderer, a well-known ruffian named Fugit, was still in the neighborhood, and, though he had publicly exhibited his victim's *scalp*, which he carries around in his pocket, wrapped in a piece of newspaper, (the Missouri *Republican*) no attempt had been made to have him arrested and punished. Such is Pro-Slavery justice in Kansas. To this day, no man has ever been punished, by law, for offences committed against individuals of the Free State party!—not one!

All our previous reports in regard to the invasion are confirmed. Our informant thinks there are at least three thousand Missourians in the Territory at different points, and more are going in daily from various places along the border—all swearing vengeance against the d——ned Abolitionists. A large party of Platte county men, it is said, have backed out, convinced that they have been deceived in regard to the alleged criminality of the Free State men. They found that the inflammatory appeals which had aroused them were based upon imaginary occurrences, and that really they had no cause for war. Twice before they have been misled, and this time they find themselves in the same trap. The report is hardly worthy of credit.

We hear that Mrs. Hopp is now in this city. The captain of the Missouri River boat, finding her crushed in spirits and utterly penniless, gave her a free passage to St. Louis, and the passengers, commiserating her condition, made up a purse of $33, to defray her expenses to Rock Island, her former home. Of course her tale, when she tells it, will be characterised as "a d——d Abolition lie!"

Later from the Iowa Borders.

LAND ROUTE TO KANSAS BLOCKED UP.

We have information from Nebraska City, of the most positive character, saying that the land route to Kansas, is obstructed by a party of 400 men from Missouri, under Col. Richardson, also a Missourian, who have established a camp on the new road just below the Nebraska line, but within the boundaries of Kansas. It is reported in the Missouri papers that Richardson's force numbers one thousand; but this is doubtless an exaggeration. But the party is strong enough to turn back all emigration, and to seize and carry off all supplies entering the Territory in that direction. It is said that there are about one hundred men, women, and children, on the Iowa frontier, who would go into the Territory but for the presence of these highwaymen. They are scattered along the river and about Tabor.

Thus the position of the Free State party in Kansas can be comprehended at a glance. The Missouri river is blocked so that no Free State man, no freight marked for a Free State man, at any point on the river, can go up. The Iowa route is filled with a regiment of armed and desperate men, and no one, not of their political faith, can go in or out. At various points along the river, the Ruffians are pouring in by thousands—literally by thousands; they have possession of all the towns and landings on the Kansas, as well as on the Missouri side. They hold all the roads leading into the Territory. They are drawing nearer and nearer to Lawrence—concentrating their hordes upon that point—with the undisguised purpose of "wiping out" that place and its people. The United States troops are either passive spectators of these rebellious proceedings, or, are, under the command of their officers, abetting the murderous work. The Territorial government has struck hands with the Ruffians; and there seems to be nothing, except an interposition of Providence, which can prevent a general and indiscriminate slaughter at their very hearth-stones of the actual and bona-fide settlers of that distracted and ruffian-ridden Territory.

Men of the North! what shall be done?

Wisconsin Railroads.

The Legislature of Wisconsin, which met in special session on Wednesday, is convened for the purpose of disposing of the munificent gift of land granted by Congress, to that state for the purpose of aiding in the construction of a railroad from Madison or Columbus, by way of Portage City to the St. Croix river or lake between townships 25 and 31; and from thence to the west end of lake Superior; and to Bayfield; and also from Fond du Lac, on Lake Winnebago, northerly to the state line.

In his message the governor says:—The land thus donated will exceed two million of acres, which at two dollars and fifty cents per acre, being the price fixed for government lands of the same kind, will amount to five millions of dollars. The grant therefor is a magnificent one, and if properly used, will tend greatly to develope the resources of the State, and bring the agricultural, manufacturing and mining districts in close proximity to each other and mutually benefit each.

Champaign County Aroused.

"Buchanan Clubs are being organized, and Democratic meetings are being held in different parts of the county. A large meeting was gathered spontaneously, on Monday evening of last week, at North Lewisburg, which was addressed by William G. Boggs, Esq. The interest manifested by the assembly evidenced their desire to learn the truth; and we have no doubt that much of the mists and falsehoods of the Abolitionists were removed from many minds."

The above is Brother Bogg's account of the Democratic meeting he lately addressed at North Lewisburg, in this county. After his speech a vote was taken, with the following result: Fremont, 39; Buchanan, 3; Fillmore, 2. It is believed that six Buchanan men went up stairs, and only three came down. We hope Bro. Boggs will continue his labors in Champaign. What a tre-men-jous fellow he is to arouse a county.—*Urbana Gazette*, 28th.

Coles.—The Agricultural Society of Coles advertise their Annual *Fair* for the 24th and 25th days of September, at Charleston.

Col. Fremont's Beef Supplies.

The Democratic papers are vaporing considerably in relation to certain contracts made by George W. Barbour, United States Indian Commissioner, with Colonel Fremont, with regard to supplies of beef, which the New York *Evening Post* explains, to the satisfaction of the most prejudiced caviller. These supplies were to conquer the Indians with in California, food being found by the Commissioners both cheaper and better ammunition for fighting red men than powder and ball. Fremont's proposals were lower than any others received and were accepted. He could afford to offer better terms than any of his competitors, because he had greater powers of endurance than most men; he had more experience in fighting or managing Indians, through whose territory, for a distance of some three hundred miles, the animals had to be driven, and he was withal much more ready to expose his life to the perils of such an enterprise than any one else in that region. He fulfilled his contract agreeably to its stipulations, and went to Washington for his money. The auditing departments said, Mr. Commissioner Barbour had no right to make contracts, in the name of the Government, to feed the Indians. He only had power to make war or peace with them. Colonel Fremont went to Congress, and asked them to order his bills to be paid. The subject was referred to a Committee of the 33d Congress, in 1854, composed of the following gentlemen: James L. Orr, of South Carolina, Chairman; Benjamin C. Eastman, of Wisconsin, Galusha A. Grow of Pennsylvania, Edward Ball of Ohio, Augustus E. Maxwell, of Florida, Daniel B. Wright, of Mississippi, Alfred B. Greenwood, of Arkansas Benj. Pringle, of N. Y. and Milton S. Latham of California. All of these gentlemen were Democrats, except Ball, now a Fillmore man, and Pringle, now a Fremont man: they were Whigs. All are now Buchanan representatives, except the two mentioned, and Grow and Eastman the latter now dead. Latham is the present Collector of San Francisco.

On the 14th day of July this Committee made their report, in which they state that the contract was conceived in a wise and humane spirit; that the prices were reasonable; that its terms were fairly and fully complied with. "Col. Fremont, they say, "purchased a large number of beef cattle in the Southern part of the State, and hired drivers at a heavy cost, to drive them to the designated place. The cattle were driven upwards of three hundred miles, in the heat of the summer, in the dry season, at great labor and exposure, and some four hundred were lost or died on the route. He delivered to agent Barbour, and took his receipt therefor, one million, two hundred and twenty-five thousand five hundred pounds of beef on the hoof, and accepted in payment drafts drawn by agent Barbour on the Secretary of the Interior, amounting to one hundred and eighty-three thousand eight hundred and twenty-five dollars. These drafts were protested on presentation, no appropriation having been made by Congress from which they could be paid. Subsequently, the treaties were rejected by the Senate for reasons that have not yet been made public, and the Indians of California have been driven from their lands and homes, and have received no compensation from the Government, save the beef furnished them by Col. Fremont, and which he now asks the Government to pay him for. The beef went into the hands of the agents of the Government; whether it was all faithfully distributed among the Indians, by the sub-agents, is not a question that is to affect the justice and equity of the claim of Colonel Fremont. He furnished the agents of the Government with a large quantity of beef. Most, if not all of it, was used in feeding the Indians; it was furnished to comply with treaty stipulations; it stopped the war and restored peace to the country. And will the Government now shield itself from the payment of this claim, and devolve a ruinous loss upon one of its own citizens, upon the technical pretext that the agent had no special authority to make the contract? We have received the advantages and benefits of the contract, and your Committee believe that it is just that we should pay for it."

Both the Senators and both the Representatives from California, Messrs. Weller and Gwin, and Messrs. McDougal and Latham, united in saying that Fremont earned his money, while all the members of Congress from Kentucky, including Mr. Breckinridge, the Buchanan candidate for Vice-President, united in testifying to the unexceptionable character of Mr. Commissioner Barbour. The Committee reported unanimously a bill for the payment of of the Colonel's account, and it passed the House unanimously, though presented on "Objection day," as it is termed, when a single objection would have been fatal.

Wisconsin Legislature Convened.—Message of Governor Bashford on the Kansas Question.

The Legislature of Wisconsin met on Wednesday, to close up unfinished business of the winter term, and to consider other important matters. The Governor calls their attention to the alarming and dangerous condition of affairs in Kansas, where citizens of Wisconsin have been maltreated, robbed, and murdered by Missourians, while quietly and peaceably attending to their proper business. The Governor recommends that some constitutional action be taken to protect its citizens in Kansas. We publish the portion of his message bearing on that matter. Says the Governor:

"Kansas is now in a state of civil war, growing out of the mal-administration of the government of that Territory, and the determination to force slavery upon it—not by the people of the Territory, but by the people of Missouri and other slaveholding States. For that purpose they have controlled the elections in that Territory, by mobs and at the point of the bayonet; its Legislature has been elected by the people of Missouri; laws have thus been enacted that are disgraceful to the American character; the property of the actual settlers has been destroyed without authority or law, and the people themselves in many cases brutally murdered. At this very time, the free settlers of the Territory are being driven from it, by the people of Missouri and other slaveholding States; while the National administration is apparently accessory to this subversion of their rights, or unwilling to protect the people of that Territory from these outrages. The course to be pursued by the State of Wisconsin, in this emergency, I will leave to your judgement to determine.

I am well satisfied that the only way to maintain harmony among the States, both North and South, is to restrict slavery to its present limits. This was evidently foreseen by the founders of this Republic, who, by the Ordinance of 1787, dedicated to freedom all of the Territory then belonging to the United States and prohibited slavery or involuntary servitude therein; intending thereby to place it beyond the power of Congress to extend the bounds of slavery and forever to stop its agitation.

Since your adjournment, it has come to my knowledge, from reliable sources, that many of our citizens of this State, who have not expatriated themselves, and who consequently still remain citizens of this State, while going to Kansas Territory for lawful purpose, and while upon the rivers of the United States, made public highways by the laws of the United States, have been seized, their property taken from them, and they imprisoned, and their lives put in jeopardy, by the people of Missouri and other slave holding States. These outrages have become so frequent, that I have felt it to be my duty to call your attention to them, that you may devise some legal and Constitutional way, if within your power, to protect our citizens and to redress their grievances; the General Government being impotent for that purpose, or willfully neglecting to do it.

As lovers of freedom, and the union of these States, it is our duty to oppose the farther increase of slave Territory, preventing Slavery thereby, from cursing new Territory; from making dishonorable, free labor, as it inevitably must where it comes in competition with it; from strengthening a system which threatens to destroy the fraternal feeling among the States, and the Union itself; which disgraces us among the nations of the earth; and which begets an evil and domineering spirit among those connected with it, inconsistent with a republican form of government."

A Rich Joke on Dr. Malony.

[From the Belvidere Standard.]

Dr. Malony, the candidate of the great unterrified, Border Ruffian Democrocy, is going round in different towns in the County, holding meetings. He appointed one to be held at the school house in the town of Flora, last Saturday. The audience was quite a good one, and the Dr. flattered himself that he should make some converts, and spread himself quite extensively. After he had concluded, the following resolutions were passed. The Dr. took his hat and left in a huff.

Resolved, That this meeting despises and rejects the doctrine of "Popular Sovereignty," contained in the Kansas Bill—and denounces it as a fraud and imposition attempted to be practiced upon the People of this Nation by the friends of Slavery extension.

Resolved, That neither the platform nor the candidates of the Cincinnati Convention should be sustained by any freeman, because they are devoted to the degradation of white laboring men and the perpetual slavery of black laborers.

Resolved, That we cordially approve the platform and the candidates of the Philadelphia Convention, because they represent and speak for the free and intelligent laborers of this Union.

Resolved, That we prefer the Richard S. Molony the Freesoiler of 1850 to the Richard S. Molony the Slavery advocate of 1856, and that we prefer Elihu B. Washburne to either, because he is true, faithful and consistent in the cause of Human Rights.

A Falsehood.

The Chicago *Tribune*, a few days ago, with that insulting tone so characteristic of the bitter personal feelings which govern the Know Nothing faction of the "Republican" party, offered ONE THOUSAND DOLLARS as a stake to vindicate John C. Fremont from the disgrace and dishonor of being, or of having ever been, a Roman Catholic.—*Chicago Times.*

That's a falsehood, and the *Times* knows it!

Winnebago County.—The County Fair is to held on the 23d, 24th and 25th days of September, at Rockford. A fine exhibition is promised by the local papers.

GREAT REPUBLICAN DEMONSTRATION.

BELOIT BEARS THE PALM!

25,000 Freemen of Two States in Council.

Thirteen Counties Represented.

A report conveying the ghost of an idea of the Republican demonstration at Beloit, would crowd all the advertisements out of this edition of the *Tribune*. It will be understood therefore that the following sketch is simply an outline of the events which distinguished the 3d of September 1856, at Beloit, above all other days that have ever been.

ARRIVAL.

The delegation which left Chicago, Tuesday evening, was detained some three hours at Winfield station, by an accident to a Burlington train. We reached Beloit shortly after midnight. Just before our train touched the station, a bonfire leaped into the air, and illuminated the whole city. Already the houses and windows hung with streamers and banners and even at that unusual hour, fearful note of preparation was sounded for the doom of Ruffian Democracy in November. The city was already filled with thronging multitudes and some 800 encamped just outside the town. Every disposable place was occupied in the hotels and private houses, and as the weather was beautiful, no one was particularly discommoded, or had the wire edge taken off his patriotism by this primitive style of lodging.

THE MORNING.

The sun rose exactly at the moment predicted in the Republican Almanac, upon a cloudless sky. The roar of cannon from the Public Square, and the rattling of teams from the country immediately adjoining, gave premonition at an early hour, of the sort of the aid and comfort Beloit would afford to Missouri Ruffian scoundrelism during the day, and of the estimation in which this glorious county holds the squelching impurity of the Cincinnati platform. At 9 o'clock A. M. the streets were crowded with teams of all sizes, from the ten horse car to the single bob-tailed horse and buggy—all plastered and streaming with badges and banners, while the sidewalks were crowded with an eager and truth-hungry multitude. We may as well say here, that we saw only one intoxicated person during the whole the day. He was a Buchanan man and was carried off on two pieces of a rail fence towards the close of the exercises. No man respectable, orderly, well dressed and well conducted gathering, has it ever been our fortune to behold.

THE DELEGATIONS.

About 10 o'clock the delegations began to pour in from the surrounding counties, north, south, east, west, north-east, south-west, N. N. W., N. E. by E., and every other conceivable and inconceivable point of the compass. The following is as complete a list as we could obtain. If we have omitted any regular delegations we beg the privilege of making the earliest possible correction:

Janesville, Avon, Rock, La Prairie, Turtle, Plymouth, Clinton, Johnstown, Delavan, Kenosha, Racine, Milton, Fulton, Clarence, Footville, Monroe, Evansville, Bradford, Manchester, Harmony, Winnebago, Rockford, Freeport, Belvidere and Caledonia.

The following counties of Northern Illinois and Southern Wisconsin were represented:

Rock, Green, Dane, Walworth, Dodge, Milwaukee, Racine and Kenosha in Wisconsin, Cook, Kane, Boone, Winnebago and Stephenson in Illinois.

The Janesville delegation came in 1000 strong, with 200 teams. All the Republican clubs came down, and one organization, comprising all the mechanics in the city, presented itself without an individual missing. Their train covered the prairie road for a distance of five miles. Their banners and devices were of every possible style and description—all, however, in most admirable taste. Among other things we noticed a wagon in the form of a full rigged schooner. In another was was fixed a new printing press, labeled "Herald of Freedom"—a style of nuisance which still remains unabated in Rock county, Wisconsin. Where's Judge Lecompte this while?

From Winnebago county, Illinois, principally from Rockford, Roscoe and Rockton, the train consisted of 24 one-horse teams, 54 two-horse, 50 four-horse, and 11 six-horse, in all 398 horses. Winnebago will do better than that in November.

In the train which brought the Clinton, Plymouth, La Prairie, &c., delegations, we noticed two teams of ten horses each. There were also other ten-horse establishments on the ground, from what direction we did not learn.

THE PROCESSION.

We confess our entire inability to describe the procession—when it began or where it terminated. We inquired of two of the Marshals for information on this point, but got no satisfaction. It was generally admitted that the procession got upon the ground somehow, which was more than we expected. We arrived upon the ground at 11 o'clock. The tail of the procession was not noticed till half past one. Among the banners and inscriptions we noticed particularly the following:

"We'll subdue you; I'd smile;" "100,000,000 for Freedom;" "000,000,000 for the Bogus Laws;" picture of a Rocky Mountaineer bringing down a *buck*, "never known to fail." The Badger state good for 10,000 for Fremont." "Jessie queen of hearts." Picture of Buchanan with a padlock on his mouth holding a pair of scales called, "squatter sovereignty;" one side of the scales contains a little nigger; the other, a white child; nigger the heaviest; a gentlemen with a tail, holds the key to the pad lock. The Pacific Railroad with a Fremont locomotive. "We'll drive a spoke into the wheel of Freedom." "The drone bees; smoke 'em out." We'll stuff the ballot-boxes this fall with genuine votes," 7,000 majority for Washburn." A large banner with 32 stars—one of them surrounded with crape, &c., &c. By far the most interesting symbol of the occasion consisted of 32 young ladies drawn by an eight horse team; 31 were dressed in white, and represented the various states of the confederacy. One alone was draped in the weeds of mourning—Kansas. The effect of this part of the procession was very fine. Kansas, a daughter of Dr. Jesse Moore, of Beloit, conducted her part of the oratorio with admirable taste, and we venture the opinion, that the north west does not contain another 32, whose appearance and intelligence would more fitly grace a scene of this description.

THE ORGANIZATION.

Arrived upon the grounds—a beautiful grove half a mile north east of the college buildings—the meeting was organized by the election of Hon. Wm. C. Goodhue, Mayor of the city, President; The following gentlemen—chairmen of their respective clubs—were elected Vice Presidents: E. P. King, Beloit; J. M. Burgess, Janesville; W. L. Calkins, Avon; S. F. Chapman, Rock; Jesse Miles, Fulton; Francis R. Cady, Manchester; H. Cheney, Johnstown; F. A. Humphrey, Turtle; E. King, Decater; J. Case, Racine; Jesse C. Bronson, Rockford; Thos. B. Talcott, Rockton.

PROCEEDING TO BUSINESS.

Previous to the arrival of the speakers, B. C. Hale, Esq., of the Beloit *Journal*, announced that the ladies of Beloit had prepared a large dinner for the assembled thousands, just east of the main stand, the proceeds of which would go to the relief of the suffering in Kansas, for the particulars of which admirable and benevolent arrangement we refer the reader to another column.

The President then announced to the audience Wm. E. Howes, Esq., of Unadilla, N. Y., from stand No. 1, and Rev. A. Montgomery of Chicago, from stand No. 2. Mr. Howes occupied about twenty minutes before the arrival of the regular speakers, with a capital speech. His remarks were somewhat severe upon the man whose soul had gone into a platform, and somewhat saucy in respect of the Senator from this city, whom the speaker considered raised up for two especial purposes: First, to kill the Democratic party by hanging around its neck, and second, to furnish posterity with one ever-memorable, never-exhausted argument for total depravity.

At the conclusion of Mr. Hawes' remarks, which were loudly cheered, the President announced Hon. Owen Lovejoy, of Illinois, from the first stand, and J. C. Vaughan of Chicago, and David Noggle, from the second, and M. P. Sweet and others from the third. It was found that neither one nor two platforms were adequate to the immensity of the audience. Three stands were immediately put in requisition and the speaking continued from Messrs. Lovejoy, Vaughan, J. F. Farnsworth of Chicago, Marshall M. Strong of Racine, J. P. Marsh of Rockford, M. P. Sweet of Freeport, Mr. Sleeper of Janesville, and others until 6 o'clock, P. M.

It is unnecessary for us to give a detailed report of Mr. Lovejoy's speech. Both time and space would fail us. He commenced by chasing down the great black shaggy bug-bear of "fusionism" and showing how perfectly proper and harmless the beast was as soon as known from personal acquaintance, and not through the horrifying introduction of the Buchaneers. He then analyzed the double-rectified essence of moonshine contained in "sectionalism,"—the "sectionalism" of the Republican party—the "geographical line" party, the "sixteen star" party, the "dissolution of the Union" party, the party which refused to run an electoral ticket in States where its friends are mobbed for opening their mouths, the party which being confined by the rules of negro-breeding society to sixteen States, would endeavor to make the best of them at any rate. The fierce poison of this essence as aforesaid, was carefully tested by various rules known to political toxicology, and discovered to produce effects merely on the imagination. Mr. Lovejoy dwelt upon pasteboard dogs who squeak just as Douglas pinches them and disturb the hours of natural rest belonging to honest men with bayings of the moon and other unseemly and inconceivable aberrations, whenever the Senator from Illinois winds them up and sets their calamitous machinery going.

Mr. Lovejoy's speech was about two hours in length. Its close was electrical and drew forth a storm of applause.

Mr. Farnsworth, of this city, followed Mr. Lovejoy, and made a strong and telling speech. We have not the space for even a sketch of his remarks but would respectfully suggest to those who may have a chance to hear Mr. F. that their political sanity will be materially improved by one of his efforts.

Mr. Farnsworth's was the last speech of the afternoon, of particular consequence. Several speakers occupied the second stand after the conclusion of Mr. Vaughan's remarks, whose names we did not learn.

At 6 o'clock the procession re-formed and proceeded back to the town, and most of the delegations set out for home with such arguments for Fremont and Dayton as will astonish every hide-bound Buchaneer in the United States, on the 4th of November.

If privately asked an opinion of the general merits of the Beloit meeting, we should say that it was the best arranged, most enthusiastic and by far the largest political gathering we have yet met in the North-west. At one time there must have been 25,000 people on the grounds. The three stands were so far apart that neither of the speakers heard any of the others, and the intervening space was completely packed with eager listeners while the whole plain in front of the grove was covered with men and teams. Several of the speakers mentioned that they had met with no such audiences anywhere during this campaign. Two or three more such gatherings would spoil the recollections of 1840. There is no longer in this section any such thing as the "unterrified Democracy." They are all terrified, and have good cause to be, viz: loss of offices, and consequent plunder. An old chattering Democrat remarked to us on the cars, "the people are Fremont-mad." "Beg your pardon, sir, but really, sir, think they're sober this time. Havn't heard of anybody's catching the Buchanan mania, eh?" "Well, perhaps not."

Beloit takes the palm thus far. Right proudly may she bear it, and right welcome is she to all its honorable worth until some other city (more beautiful it cannot be) shall give us a more glorious, towering exhibition of Republican strength.

THE EVENING.

Those who remained in town over night reassembled on the grounds at half past seven. The grove was brilliantly illuminated with lanterns and torches hung on the trees, and about 2,000 people assembled around the main stand. This was an extra-judicial movement on the part of the people, and not at all contemplated in the programme. They insisted that the speakers should return and give those a chance to hear who were prevented by the immensity of the throng in the afternoon, and would take no denial. Mr. Winslow, of Conn., was first introduced, and was followed by Vaughan of Chicago, and J. A. Sleeper, Esq., of Janesville.

The enthusiasm continued unabated until after 10 o'clock, when cheers were given for Fremont and Dayton, for Jessie, for the ladies, for Free Kansas, for the speakers, and miscellaneously for everything, except the Turk, the devil, and the Buchaniers.

The Kansas Outrages.

INTERVIEW OF THE KANSAS COMMITTEE WITH PRESIDENT PIERCE—OPINIONS OF THE PRESIDENT, &c.

To the National Kansas Committee:

The undersigned in obedience to your instructions, waited on President Pierce on the 30th ult., and prayed his interposition against the threatened Slave-Oligarchic invasion of Kansas. The following is a summary of the results:

VIEWS OF THE PRESIDENT.

The opinions expressed by the Executive are substantially as follows:

"While Government has been exhausting its constitutional powers (which are limited) to maintain order, Kansas Aid Societies have been actively stirring up rebellion. A factious spirit among the people of Kansas respecting institutions which they need not have concerned themselves about, and which would have all come right in time, originated the troubles. From the nature, habits, and education of the border-men, it was natural to find them excited by such agitation. At this crisis, the North, instead of sending in armed men, who went about, boasting of their ability to protect themselves, should have sent in order-loving and law abiding citizens; should have sent in peace-seeking men, who would have promoted concord by moral agencies—by Bibles rather than by Sharpe's rifles. Such a course would have strengthened the hands of the President instead of tying them as they have been. The sufferings of the settlers are, therefore, of their own seeking, and the legitimate fruits of that gunpowder-bible preaching, which they and their supporters at the North have advocated. Each side is doubtless to blame. Inflammatory appeals are circulated both North and South, and reports false or exaggerated, put forth by heated partizans to stir up sectional strife. If each party would only get rid of about one hundred of their designing and restless leaders agitation would cease, and a speedy end be put to the disorders.

"The interposition of the Executive is claimed by both sides, each party urging against the other exactly the same charges. At this distance from the scene of strife, the President cannot determine between them. His action must be guided by official reports. Gen. Smith communicates a very different condition of things from the exaggerated statements which have gone abroad. No apprehension of an armed invasion need be apprehended. But, should it happen, the whole power of the Government will be exerted to repel it, *come from whatever source it may*. The army in Kansas is not there to prevent or correct outrages unless they amount to invasion or insurrection. The civil power alone is competent to this. Application should be made there. Gen. Smith had no power to redress the wrongs of Mr. Strawn. He applied to the wrong quarter. He should have gone to the Courts. As to granting him an escort, Gen. Smith thought if Mr. Strawn was smart enough to find his way safely to him without one, he ought to be able to find his way back! The Courts are open to all classes of citizens, without distinction. No *authentic* information has ever reached the Executive of an individual who has sought a redress of wrongs at the hands of the civil power in Kansas, and failed to obtain it. If one such case had been presented, he would at once have removed the offending official. If the majority of the people in Kansas had wanted peace and quiet they could have had it. The way to get it was for the settlers among themselves to frown down all agitation growing out of differences of opinion as to local institutions. The Executive had always felt solicitous about the Territory, and had exerted his constitutional powers to their full extent to preserve order. The affair at Lawrence had given him great anxiety, and he at that time telegraphed both to Col. Sumner and Gov. Shannon, besides sending a special messenger. (Here the President produced copies of his telegraphic dispatches, which, we believe, were made public at the time.) The outrages at Lawrence were not done by authority. The President admits that mistakes have been made, as is evident by his removal of Shannon. But an impartial man has now gone there, who will see justice done to both parties. If he should catch either party in acts of violence, they shall be hung up on the spot. The Civil Power of the Territory must be maintained!"

OPINIONS OF THE PRESIDENT.

1. That Government has not the power to protect emigrants *en route* for the Territory, because of the jurisdiction of the States; consequently, outrages committed on the highways of the Nation can only be redressed by the Courts of the respective States on whose soil such outrages were committed.
2. That Government has no power to prevent or redress outrages committed within the Territory except through the civil arm, or by martial law.
3. That the military can only aid the civil power as a *posse comitatus*; consequently,
4. Government having provided a *legal* mode of redress for the settlers, and strengthened it by a posse at all times available, the fault is with the settlers where they have failed to get protection or redress; they have failed to get it either because they were not law-abiding citizens, or because they made application to the military, which was the wrong source from whence to seek it.
5. That the mere possessions of arms by emigrants entering the Territory is not *prima facie* evidence of threatened invasion, and that the mere possession of arms by settlers within the Territory is not *prima facie* evidence of threatened insurrection; that the bearing of arms is a Constitutional privilege which distinguishes American citizens; and then even Government itself has no right, under such circumstances, to disarm them.

REPLY OF THE COMMITTEE.

Mr. President: During the eighteen months or more that executive power has been exerted, as it is alleged, to preserve peace in Kansas, and vainly exerted it would seem from admissions here made, the disorders of that Territory have grown only worse. At this moment they are more threatening than ever; a peaceful solution of its troubles seems still more uncertain than at any period of its former history. The President affirms that he has exhausted all his constitutional powers. And yet order is not restored. Under such circumstances may it not be worth while to inquire *whether the germ of the evils is not to be found in the Territorial laws themselves?*

President—This question I do not propose to discuss at the present time.

Committee—From whatever source then, sir, the difficulties in Kansas have originated, this one thing is patent to the country and to the world—that, notwithstanding all the efforts of the Government, disorders of the most frightful character have prevailed; disorders that would shame the worst despotisms of the worst ages; disorders so wide-spread and so atrocious, so bloody and so infernal, so deeply damning and inhuman, that, to escape them, the wretched inhabitants would make a gain if transferred to the despotic Governments of Russia, of Austria, or of France. During this dark reign of blood and terror, during this fearful tempest of violence and anarchy, these poor, unshielded victims of plotted vengeance have broken no law and committed no crime. For hating Slavery, because they loved Liberty, all these things have come upon them.

Such, Sir, is the nature and character of the events which have transpired in Kansas during the past eighteen months' policy of the Government. As representatives of the National Kansas Committee, we are here to-day to ask *whether any change in this policy of the Administration is to be expected?*"

President—"*No, Sire!* There will be none!"

Such, gentlemen of the National Kansas Committee, is the substance of our interview with President Pierce. The duty of commenting on the facts here stated we leave to you. Our mission is ended.

Respectfully, &c.,
Thaddeus Hyatt,
W. F. M. Arny.

Piles, Piles, Piles.—Piles neglected, often prove fatal, leads to consumption; anoint the parts three times a day with DALLEY'S PAIN EXTRACTOR. If secretion forms in the rectum then insert the "Pile Syringe" filled with Extractor, and gradually discharge it as the syringe is withdrawn. It never fails to cure cases of any age or virulence, nor to all, frequently curing by one application.

Piles are known by the heat, itching, and pain of the anus. Bleeding piles are caused, sometimes, by the falling of the whole bowels, which then press the intestinal canal tight against the back bones and keeps the blood from returning up the vessels, similar to the blood being kept at the top of your finger when a string is tied tight round it; [illegible] then procure a perfect abdominal supporter, and wear a compress to the rectum, and continue to use the salve as above, also rub it well over the loins and abdomen for some time, and the natural belts that support the bowels will be contracted, and made strong, and your life will be saved. If properly applied, every case will be cured. It never fails.

W. Jenkins, Esq., of Columbus, Ohio, Secretary of the Ohio Insurance Company, who was taken to New York in extreme debility, with Piles, to have an operation performed by the celebrated Dr. Mott, as the only chance to save his life, accidentally heard of the PAIN EXTRACTOR, states "For years, his disease defied medical skill, and grew worse until life became intolerable; he was speedily cured by DALLEY'S PAIN EXTRACTOR."

BILLIOUS DISEASES,

DUMB AGUE,
Having their origin in Malaria of very fertile or marshy districts.

PREPARED BY DR. S. SAWYER, AND sold by SAWYER, PAIGE & CO., Druggists and Chemists, 74 Lake street, Chicago.

This remedy is prepared entirely from vegetable substances and contains no mercury, arsenic, or anything that can prove injurious to the system. Its effects are those of a deobstruent and tonic, well adapted to restore the healthy action of the stomach, whose functions are so generally impaired in this class of diseases.

Quinine and other tonics, serve only in many cases to break the chills, but do not remove the disease of the liver and other organs, implicated on which the chill and fever depend; hence the usefulness of the "Fluid Extract of Bark," (particularly in regions where physicians cannot be readily consulted), which contains all the qualities suited to the [illegible] these maladies.

Hundreds of testimonials in regard to the efficacy of the medicine from persons of respectability, have been given to the proprietor—but he does not make use of them, as he prefers to have the medicine introduce itself solely by its merits.

Police Court.—Mathew Jackson was fined $5 for violating the health ordinance. Geo. H. Parsons, a lad, was convicted of vagrancy and sentenced to the Reform School one year. Cornelius McCarthy was fined $25 for driving a hack without a license. John Persell was fined $50 for vagrancy and sent to the Bridewell to work out the fine. For being drunk and disorderly Jonathan Nicholson was fined $25; Dr. Francis R. Binder $3; Patrick Campion $15.

Alleged Larceny.—Yesterday a drayman named Martin Hayden was brought before Justice D'Wolf on a charge of stealing $30 from Messrs. D. W. Corbin & Co., and held to bail in the sum of $500. Hayden went into the store to collect $7 72 freight and cartage on some goods, and the clerk, in paying him laid three ten dollar bills upon the counter, which were afterwards missed and Hayden was charged with having stolen it. He denies any knowledge of the money.

Railroad Accident.—When the train on the Galena and Chicago Union Railroad, which left Dunleith at 6 o'clock Wednesday evening, had arrived near the first station East of Belvidere, it ran off the track, throwing the rear passenger car completely over, and smashing it up badly. Almost by a miracle none were seriously hurt, although hats and bonnets suffered some.

After an hour's detention the remaining cars were set right again, and the train reached home one hour behind time.

New Synod of the Reformed Dutch Church.—We are authorized by the Rev. Dr. Ferris of this city to state, that a meeting will be held—probably in the third Presbyterian Church—on Tuesday morning, for the purpose of organizing a Synod of the Reformed Dutch Church, to be called the Particular Synod of Chicago, and to be composed of the classis of Michigan, of Holland, Mich., of Wisconsin and Illinois; Rev. Dr. Ferris, Chancellor of the N. Y. University, and Rev. Dr. Van Olinda are the Committee of the General Synod to superintend the organization. Further notice will be made in due season.

Alleged Horse Thief.—A man named Eli Bagley was yesterday brought before Justice King on a charge of stealing a horse from Stephen G. Watson at West Wheeling, in this county, and placed under $500 bail to answer. Bagley made a contract with Watson to paint a house and was to be paid with this horse and $50 in cash when the work was done. Before commencing the job Bagley borrowed the horse to come to town and purchase paint. Here he sold the horse, representing that he had brought him from Ohio, and fled to Columbus, Columbia Co. Wis. Capt. Bradley was employed to catch the thief and recover the horse, a job that, with him, was readily accomplished.

Recorder's Court.—Yesterday the following cases were disposed of: Wm. Seybold was tried on an indictment for larceny, and the Jury failed to agree.

Vet Barheit indicted for larceny, plead guilty.

Charles Hanschel was convicted of stealing a shawl worth $5, and the Jury fixed his term of imprisonment at one year.

William Armstrong, George Stewart, Daniel Barnard, Ellen McMahon, and Samuel Duval, all charged and committed to jail with larcenies of various descriptions were discharged by the grand jury, and a number of persons who are indicted are out on bail and have not been found. The Court will probably adjourn this week.

St. Joseph Hotel.—A new hotel bearing this name is to be opened to the public on Wednesday evening next at South Bend, by a grand dedication Banquet, given by the proprietor Wm. R. Butts. The Hotel is described to us as a very large building, elegantly furnished and finished, with all the modern improvements. Mr. Butts is an experienced landlord. He formerly kept the Weddell House, Cleveland, where he was highly esteemed by the citizens and traveling public. He will make the St. Joseph House the "crack" hotel in Northern Indiana. We cordially recommend his house to all wayfaring men and women.

We acknowledge the receipt of a ticket of invitation to the house warming, but a press of other duties will prevent us from being present and enjoying the banquet and pleasure of the occasion. Dean & Leland's Band of this city are engaged. We observe quite a number of Chicagonians among the honorary managers of the occasion.

An Alleged Bigamist.—A man named Charles J. Fordham, recently employed in the Cleveland House in this city as steward, was lodged in jail on last Wednesday evening charged with having more wives than the law allows this side of the great Salt Lake. From all we can learn of the case, Fordham, in March last, married a Miss Kate Ford. Soon after the marriage the second wife received a letter from Jamestown New York, signed "Mrs. Fordham," stating that the writer had married Mr. Charles J. Fordham four years previous and had one child by him, and also stating that Fordham had been in jail at different times but had always managed to elude justice. The mother of Fordham's first wife also appended a statement to the letter confirming what her daughter had written.

About six weeks ago Mrs. Fordham the second called upon Capt. Connett and showed him these letters. The Captain wrote to a gentleman at Jamestown and ascertained that Fordham was then there and making efforts to get the child from its mother. A requisition was obtained from Gov. Matteson upon Gov. Clark of New York for the arrest of Fordham and an officer dispatched to bring him to this city, where he is now in prison. The Grand Jury of the Recorder's Court have found an indictment against him and in the mean time, his second wife, who is a stranger in the city, is domiciled in Capt. Connett's house to await the trial of her husband.

The War of the Factions in the Buck-African Camp.—As election time approaches the war between the factions in the Buck-African camp grows decidedly interesting, and the relations of the different cliques more tangled. A change of front, has been exhibited by the *Times* faction. Prodigious efforts are now being made to force Dr. Brainard off the track and compel Tom Hoyne to take the nomination, who refuses because he is shrewd enough to see that he would not stand the shadow of a chance of being elected. The object of this move is to counterbalance the influence of Phil Hoyne and Snowhook, as Tom is said to possess great influence among the Irish, who are Snowhook's principal backers. As soon as Judge Douglas comes home this scheme will be attempted to be carried out, as Douglas is very hostile towards Snowhook and extremely anxious to prevent his being nominated. But Tom has not yet consented to run and the Snowhookites still hold the trump cards. In the event of Tom's refusing to take the nomination the plan is to fall back on Dr. Brainard and force him though over the heads of Col. Carpenter and Jack Dement who are supported by the Snowhookites and McCarthyites. Nothing further will be developed, probably, until after Douglas returns.

The contest for the Sheriffalty nomination is waxing more hot daily. The attempt of the *Times* faction to get an old line Whig on the track is reported to have fallen through and Keith and Sexton are now being pushed in the hope that, between them, a majority of delegates can be secured against Snowhook, and as matters look now this game appears likely to win, at least it is a powerful combination which Snowhook will find difficult to overcome even with McCarthy's assistance. This part of the battle will be hardly fought, and victory may perch upon either banner. It is reported that the *Times* faction have dropped young Hamilton, fearing that the fact of his father being on the same ticket will prevent his success and have taken up Andrew Harvie in his stead. Harvie is said to be reliable as against the opposition and very popular, and being a Scotchman it is expected that he can control the votes of the eight or ten countrymen of his who intend to vote for Buchanan. There is a rumor afloat that Phil Hoyne wants to back out because he very shrewdly sees that, in the present crisis, he would certainly be defeated before the people, and proposes to leave to his competitor for the nomination the honor of being beaten.

The latest bomb-shell which has exploded in the camp of the *Times* faction was fired by his honor Mayor Dyer, who has positively forbidden the using of any policemen in getting control of the Convention. This edict of the Mayor has caused a terrible hubbub and many hard things have been said against him. Considerable excitement has been rife in the *Times* camp created by a rumor that McCarthy and Snowhook have threatened that, in the event of their getting control of the convention, they will pass a resolution declaring the *Democratic Bugle* to be the only reliable party organ in the city and denouncing newspaper interference in the [illegible] "Things is working" and a [illegible] may be anticipated. Meantime we shall keep our readers posted as the various plots and counter plots are developed.

Meum and Tuum.—On a Larger Experience.—For several months past, the Illinois Central Railroad company have been annoyed by repeated complaints of packages of goods being broken open whilst in transit over that road, and rifled of part of their contents. It is true, no one of the losses was of very serious amount, but the annoyance of being continually called upon to attend to settling for half a bushel of apples taken out of a barrel—or a peck of peaches pilfered out of a box, was quite enough to test the patience of the General Freight Agent.

The officers of the I. C. R. R. made up their minds that so far from allowing the area of privileges to be extended, they were decidedly of the opinion, that it ought to be narrowed, and with a view of giving their employees a practical lesson upon the laws of *Meum* and *Tuum*, secured the services of Pinkerton & Co. of the North Western Police Agency, of this city, as teachers in this somewhat obsolete theory.

Our readers must not fancy that Pinkerton & Co. started on this task by lectures or by long-winded theoretical articles, done up in pamphlet form, nor that they take the trouble to call round and notify those they intend to enlightened—that they (P. & Co.) were retained for any such a purpose as curtailing the privileges, or correctly defining the law in relation to mine and thine. On the contrary they very carefully avoided all publicity of their acts.

The first thing that Pinkerton & Co. did, in the way of making out the theory, was to go and purchase sundry articles of clothing, boots &c., and consign them to various supposed merchants along the line of the I. C. R. R. and its connections. If any one had been curious enough to have observed very closely the travel of those boxes, he might perhaps with the aid of a good pair of highly magnifying glasses have seen, that just about the time those goods were necessary to go South, it was necessary that Mr. Pinkerton should go South too; and that when the aforesaid goods traveled North, Mr. P. also traveled north, and our observing friend might have said that it was a singular coincidence. But if he had also observed that just so soon as those same goods took another direction, our friend Pinkerton appeared to have changed his mind and found that it also was necessary for him to take the same course as the goods were going. Our observing friend would probably have pondered over the matter and arrived at the conclusion that this was a very singular coincidence, and it is barely possible that he might have thought that there was some magnetic attraction in those same boxes, which was drawing as shrewd a detective as Pinkerton is all round the Southern part of Illinois. But if our friend had been at Wapella Station, DeWitt Co. Ills., on Tuesday last, the mystery would have been unravelled, for if we are correctly informed, it was upon that day that Pinkerton & Co. deemed it advisable to come out with their views upon this great question of *Meum* and *Tuum*.

On the morning of that day Mr. Pinkerton called upon Mr. Spaulding, Station Agent at Wapella, and informed him that there were some goods in a certain case that had arrived there the previous evening, which he, (P.) would like very much to look over. Three o'clock A. M. was not the best time in the twenty-four hours comprising the day, to check out goods; but P. appeared to think that in this case, darkness was better for him than light, and that the dim rays of a lantern were far preferable to the more dazzling light of the sun. The goods were checked out, and, although Pinkerton said they were his goods, and although they fell short one coat, one vest, and one pair of pants, he did not chafe very much at the loss, for instead of crying over the "spilt milk," he promptly went to work to discover where the missing goods were, and more than once sleeper was awakened from his dreams and strongly queried as to his knowledge of the missing coat, vest and pants. To all of Pinkerton's enquiries a decided negative was given; but at length P. got into a room in the car-house, occupied by two *honest* employees—Peter and Mathew Keefer, where, neatly done up in a package, were found the identical missing suit of clothes, all of which in addition to the usual coat mark, bore the private mark of the Detective.

In order to obtain a Judicial decision upon the question of mine and thine, Mr. Pinkerton called upon Esquire Laners and obtained a warrant, with which constable Clark called upon the Messrs. Keefer to attend before the Justice, who asked Peter and Mathew to give bail in five hundred dollars each, to appear before the Circuit Court of DeWitt County, to answer to a charge of larceny, in default of which, he committed them to the jail of DeWitt County at Clinton. In case there should be any one desirious of further instruction on this question of *meum* and *tuum*, Messrs. Pinkerton & Co. we doubt not, stand ready to give practical illustrations of their peculiar theory in regard to the law.

West Side Republican Meeting.—On last evening the Republicans of the West Division held their regular club meeting at West Market Hall. The greatest enthusiasm prevailed, and the Hall was crowded. Able and eloquent speeches were made by Dr. Root, of the New Haven colony in Kansas, J. T. Hoyt, Esq., John A. Thompson, Esq., and John Wentworth. We are glad to know that this Club are prospering beyond expectation and have already nearly two thousand members. They are working faithfully and earnestly in the noble cause, and their labors will tell in November next.

Look Out.—Counterfeit gold coins are in circulation resembling the quarter eagle, but having on one side a profile of Washington instead of the figure of Liberty. They are well executed.

BUSINESS NOTICES.

☞ We learn from Dwight's Journal of Music that A. W. Ladd, Esq., of Boston, Mass., was officially notified by the last mail from Europe that he had been admitted as a brother member of the Grand Imperial Society of Piano Forte Makers of Paris, as a distinctive mark of honor.

Notice to Gas Consumers.—Owing to some alterations and repairs necessary to be made, the supply of gas for the next ten days will be limited; consumers will therefore please use as sparingly as possible, and thereby obviate the inconvenience of an entire failure of light.

The street lamps will not be lighted until after the next moon.

Aug 5,2t. JAMES K. BURTIS, Secretary.

For Fear it May be Forgotten.—We would remind our friends and the public generally, that we are still on hand at the old Post Office, and, although every body is supposed to know that, our stock this Fall is as large again as that of any other house out of South Water street, it is not altogether out of place for us to have something to say about it.

We have devoted the past three months to the selection of the most desirable goods, as well as the best bargains to be found in the Eastern markets. In this, we have availed ourselves of the assistance of two of the most skillful buyers in New York and Boston, and know it has been well done. Our styles are as usual, fully up to the latest fashions, and our work has been made up by regular custom hands, under our own personal supervision, so that we can guarantee every stitch and button. It is our aim and determination to sell twice as many goods as any other house in our line, and at HALF THE USUAL PROFIT. This we know we are able to do, buying for cash, our goods do not cost us as much as others pay by 10 per cent, and we are satisfied with 10 per cent smaller profits. We guarantee all our goods, and in case of dissatisfaction, either as to style, fit, or quality, return the money.

New York Money Market.

The American Railway Times N. Y., on this subject says the money market is about the same as noticed the previous week, if anything a little higher, rates are asked and there is more demand. We quote first class paper at 8@8½ ℘ cent., while other less known goes at 9@12 ℘ cent. The share market is dull and prices still rule very low. There is no immediate hope of any material advance in railroad securities, and any favorable change will be quite slow and therefore more likely to be durable. The foreign steamer of to-day (Wednesday) took but $637,000, while we have an arrival from California of $1,[illegible].

The Exchange market closes dull at previous rates. The transactions for this steamer have been at the same rates for bankers' signitures as for the last, 9½@9¾ ℘ cent, with a few sales at 9⅞ ℘ cent. Very favorite commercial signatures are about ⅜ ℘ cent higher. Some good bills of lading sold at 8¾@8⅞ ℘ cent. Francs, 5.17½@5.15 and quiet.

The New York Weekly Bank Statement was generally received in the street as favorable, the loans having been contracted about $1,200,000, while the specie reserve shows a small increase. The usual contraction of deposits at this season is going on, and the reduction of loans is the result.—The interior bank balances are being drawn down to some extent by the movement in produce, but the principal loss is in city deposits. The nominal reduction of deposits is $1,786,000, but the real amount, allowing for the operations of the Clearing House, is $1,237,000. In the present state of things the banks are governed more by their deposit line than by their specie. It is not probable that the specie line will vary much during the coming two or three weeks, the arrival nearly due from California and the disbursements of the Sub Treasury counteract the foreign shipments and the payments for duties, but the deposits will probably continue to fall off as the Fall business increases, and induce a further contraction of loans. The loans are now over 2,000,000 below the highest point.

Western Railroad Items.

☞ But twenty miles of the Chicago branch of the Illinois Central Road remains to be completed, and this nearly ready for the Iron. The passenger business of this road has been considerably augmented within a few days, and the freight offering exceeds the capacity of the road to transport with its present equippage. One hundred new freight cars will be on the road in a few days.

☞ The Fond du Lac Road, from Chicago to Janesville, will be completed to the latter city and open for business this week. At that point it connects with the Milwaukee and Mississippi Road, over the Western extension of which it will reach the Mississippi at Prairie du Chien. A large portion of the Northwest business will leave the Mississippi at that point and seek the East over this route. It is already doing a fair business, although without any connection at its Northern end.

☞ The Danville Democrat says:—"We learn with pleasure that full provisions have been made to pay of all the interest due on the mortgage bonds of the Catawissa Railroad Company, and that, moreover, all the demands against the Company will be promptly liquidated during this month. Much of the stock of this road has lately been purchased by parties in Philadelphia, and it is intended, we learn, to give a new impulse to its management, with a view of enlarging its business capacity.

Notice.

THE PAST EIGHTEEN MONTHS' EXPERIENCE has given the citizens of Chicago ample proof that the cosy process of cleansing gentlemen's clothes will not do, as proved by those inexperienced in the business. The fact of the matter is this, that unless your coats, vests, and pants, are dyed, cleaned and neatly repaired, by men skilled in their vocation, they had far better never be touched at all; but when they are operated upon by experienced workmen, it is certainly a great saving to the community at large, at the same time rendering much to their bodily comfort. Now, gentlemen, all of you who know any thing, know enough by this time to be fully convinced that the only true and reliable concern, having your coats, vests and pants dyed, cleaned, neatly repaired, and made to look like new, is by COOK & McLAIN'S Chemical process. It certainly does remove every spot of grease, paint, wax, and tar together with all other blemishes and impurities to which such garments are liable. The Spots are warranted not to re-appear, as a beautiful finished lustre is put on as when first new.

Gentlemen, call at COOK & McLAIN'S, and look at specimens of their own Dressing. If they fail to please you, no charge will be made.

Remember, COOK & McLAIN, 93 Dearborn street, south of the Post office. ap19-'56-ly,is

THE GREATEST

MEDICAL DISCOVERY

Of the Age.

MR. KENNEDY, OF ROXBURY, HAS discovered, in one of our common pasture weeds, a remedy that cures EVERY KIND OF HUMOR, from the worst scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of Biles.

Two to three bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the Eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appears to be surprising: first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get and enough of it.

DIRECTIONS FOR USE.—Adult, one table spoonful per day. Children over eight years, dessert-spoonful; directions can be made applicable to all constitutions, take enough to operate on the bowels twice a day.

Price $1. Manufactured by DONALD KENNEDY, 120 Warren street, Roxbury, Mass.

Abstracts of Title.

THE UNDERSIGNED, HAVING TAKEN a lease of the valuable Real Estate Title Books owned by Thos. B. Bryan, Esq., and originally prepared from the Cook County Records by J. M. Parker, Esq., are prepared to make thorough Abstracts of Title to ALL REAL ESTATE in THIS CITY AND COUNTY.

Documents of all kinds affecting Real Estate in said county are entered in said books on the same day that they are filed for record, and the most thorough revision is constantly instituted. While, by the admirable system adopted in these books, the examination of the Records themselves (which is in no case omitted) is very greatly facilitated, and we are enabled to furnish Abstracts with expedition, we shall at all times exercise the utmost care in their preparation, and certify UNQUALIFIEDLY to their accuracy.

Information given (where full Abstracts are not desired) respecting Deeds, Mortgages, Judgments, Tax Sales, &c., &c., for a reasonable charge. Chains of Title for Lawyers only.

In lieu of numerous references (which might easily be furnished), we prefer simply to point to our Abstracts and rely solely upon their intrinsic merits.

PAGE, SHORTALL & CO.,
80 Dearborn street.

Having no spare time from my own affairs to devote to the Abstract business, I have leased my Title Books to Messrs. Page, Shortall & Handy.

These gentlemen have all been engaged in the preparation of these books, and are thoroughly practised in the examination of Titles.

From my knowledge of their industry and UNIFORM ACCURACY, I have no hesitancy in commending them to the confidence of the public.

NEW FIRM.

THE UNDERSIGNED HAVE THIS DAY associated themselves together for the transaction of a General Real Estate Business in Chicago, and through the country generally. They will pay particular attention to buying and selling on commission, and will buy and sell on their own account. Parties having Real Estate to dispose of are invited to leave the same with us for sale, and those wishing to purchase may find it to their interest to give us a call. We have a large amount of Real Estate, which we will sell at reasonable prices, and on favorable terms. From our acquaintance with property in the city and vicinity, and our large acquaintance in the west and elsewhere, we feel confident of our ability to serve our friends and the public in a manner that will merit their favor.

Hyde Park City Lots.

BEAUTIFULLY SITUATED ON HIGH ground, interspersed with groves, on the Lake Shore six miles south of Chicago.

A SPECIAL RAILROAD TRAIN
leaves the Illinois Central Depot at intervals during the day for this point
TO ACCOMMODATE RESIDENTS.

Trips are made in less than 20 minutes. Commutation price 7½ cents. The trip is a delightful one along the lake shore. As the population increases, this will no doubt be a flag station for every train coming on this road to Chicago.

The drives in the surrounding country are numerous and varied by picturesque groves.

Almost every lot will command a fine lake view.

The proprietors are sparing no pains to make this by far the most attractive residence property in the vicinity of the city, and to this end they have reserved about five acres, fronting 1,200 feet on the Lake Shore for

A MAGNIFICENT PARK.

It is filled with fine old trees, and they are now laying out tasteful gravel walks, and design to erect rustic seats and ornament the ground with a profusion of shrubbery which will make the town a most

Delightful and Healthy Place of Residence

for business men and mechanics, who can live at this point and get to the centre of business quicker and with more certainty than they can from either the North or West side, within three-quarters of a mile of the Court House, and at an expense very little greater than ordinary omnibus fare. In making this their home, they will avoid

OUTRAGEOUSLY EXTRAVAGANT RENTS,

and they will have the benefit of the pure bracing air of the Lake, going to and returning from the stifling city, while their families will enjoy the invigorating strength of a country residence.

PLANS OF TASTEFUL COTTAGES,

of various designs will be found at the office, and parties combining together to build a number of these, will save a large margin from the usual prices, by getting workmanship and materials at wholesale rates. House and grounds will cost little more than what is paid in the city for a couple of years' rent.
